

	Site	Requestor	Suggested species	Notes	A'track ID No	Comments	CAT scan findings	LTC want to go ahead if poss	Agreed?	Confirmed Planted	Updated on A'track	
	54 The Fairways	Cllr S. Syson		To replace previous Cherry	14W6							
	64 The Fairways	Cllr S. Syson		To replace previous Cherry	14K2							
	The Fairways	GC			14VX	Amalanchier to match recent planting other side of junction						
	Queensway opp 6-7	GC	Liquidambar styraciflua 'Lane Roberts'		12QK	Narrow verge, streetlight nearby, mostly variegated sycamfires along this road, would be nice to get something more interesting in perhaps liquidambar						
	Queensway o/s 6	GC			27N0							
	Lillington Close	GC		To replace tree once existing is removed	16S1	BT lines close but could plant slightly to the N of current position to avoid lines, some sort of columnar sorbus would suit, perhaps aucuparia cardinal royal						
	Lillington Close	GC		To replace tree once existing is removed	16S2	No above ground constraints other than hard pruned purple plum in garden (perhaps will be whacked back again) perhaps sorbus aucuparia sheerwater seedling						
	Lillington Close	GC		To replace previous tree	16RJ	BT lines and pole nearby, best to have something narrow perhaps malus triobata						
	Lillington Close	GC		To replace previous tree	16RL	no above ground constraints, another sorbus, perhaps aucuparia golden wonder						
	Lillington Close	GC		To replace previous tree	16RM	could fit a small tree in, not the best position in the road quite close to other trees						
	Lillington Close outside no. 28				1YME	BT lines not far away but space for something small to medium, sorbus aucuparia						
	Acacia Road	GC	Robinia pseudoacacia 'Umbraculifera'		15ZB	To replace previous Acacia						
	Acacia Road	GC	Robinia pseudoacacia 'Umbraculifera'		15YK	To replace previous Acacia						
	Acacia Road/ Highfield Terrace	GC			15YE	To replace previous Acacia						
	Acacia Road	GC			2BET							
	Acacia Road	GC			2BEU							
	Acacia Road	GC	Robinia pseudoacacia 'Umbraculifera'		2BEV							
	Northumberland Rd	GC		To replace recently removed tree	0ZJZ	streetlight close by on other side of driveway entrance, liquidambar						
	Northumberland Rd	GC		To replace recently removed tree	0ZLC	only above ground constraint is streetlight, liquidambers seem to be the theme for replacements						
	12 Cloister Way			To replace previous failed new plant tree	1P71	Might as well replace with what was planted before, Liquidambar.						
	8-10 Greatheed Road	Local Resident	Betula pendula 'Zwisters Glorie'	Replacement for Cherry tree removed 3-4 years ago. No tree pit at this location, assume it must have been tarmaced	14HW	Plot is fine - tarmac would need to be removed and pit reinstated. Silver birches seem to do well along rest of road and would be appropriate given close proximity to building						
	Lillington Road verge outside no. 148				134A	hawthorn recently removed due to poor condition, space for something of reasonable mature size, possibly English oak to replace the one opposite eventually						
	Lillington Road outside no. 158				134G	to replace 2 trees removed due to poor condition, both were malus so perhaps another malus to replace						
	Lillington Road outside no. 154				14V5	replant more central in verge rather than near to previous tree, perhaps purple plum.						
	Montrose Avenue outside no. 79 - 81				16AB	To replace failed whitebeam, thin verge BT lines nearby, maybe rowan or other sorbus again						
	Montrose Avenue outside no. 31 - 33				16JN	narrow verge, something small, suggestions as below						
	Montrose Avenue outside no. 27 - 29				16K9	narrow verge, something relatively small, recent plantings in road have been sorbus comixta and aucuparia, acer buergerianum and malus tschonoskii						
	Braemar Road outside no. 8 - 9				16JJ	verge heavily compacted from vehicle parking, building work currently at no. 8, probably worth waiting or finding alternative position						
	119 Cubbington Rd			BT lines	10CR	Resident objections to replacement going in						
	238 Cubbington Rd				278M							
	Cubbington Road outside no. 121 - 123				1QLM	reasonably wide verge and footway, could have silver birch to replace one opposite that isn't likely to last much longer. There is however resident objections						

268 Cubbington Road				16V7	relatively big as the verge is quite wide and BT lines are far enough away. Perhaps <i>tilia platyphlos rubra</i>					
Sydenham Drive				215G - P	Plenty of space between lighting columns and wide verges should allow for large trees, something with a bit more interest than the trees further back from the road, perhaps tulip trees and planes?					
Cottage Walk Sydenham outside no. 37				1J9G	same as 1WWW below					
Broadhaven Close, off Gainsborough Drive, Sydenham				1WWT	lots of space, near to canal so something riparian seems appropriate, alder or willow, possibly weeping willow					
Cottage Square Sydenham				1WWW	plenty of space laterally, car parking all around, streetlights x2 nearby, something not surface rooting and not likely to shed small branches onto cars					
Cottage Square Sydenham				1WWW	width restriction due to buildings and road, either something fastigate or something that will get up above buildings (one storey) quick, birch or alder maybe					
Mayfield Close off Gainsborough Drive Sydenham				1WX5	lots of room, oak, beech or hornbeam					
Foxdale Walk off Gainsborough Drive Sydenham				1WX6	lots of room for large tree maybe something to give some shade, silver weeping lime perhaps					
Harvest Hill Close off Gainsborough Drive Sydenham				1WX7	lots of space for large tree, oak or beech					
St Fremund Way next to junction with Beavers Brook Close				1WXE	reasonable amount of rooting space, possible evening sun issues with properties on opposite side of road, small to medium tree that doesn't have a dense crown, possibly alder, weeping branches of silver birch may cause issues with road and footway					
Lambourn Crescent Sydenham				1WXV	no light issues as no. 10 has no windows on N side, not a huge amount of space, probably best to have a smaller flowering ornamental, sorbus or amalanchier					
Lambourn Crescent Sydenham				1WXY	room for medium tree windows in S facing end of building, silver birch					
Lambourn Crescent Sydenham				1WXX	narrow verge, something fastigate with flowers					
Lambourn Crescent Sydenham				1WY4	narrow verge and garden fence nearby, something fastigate and flowering, purple plum maybe					
Lambourn Crescent Sydenham				1WY5	fairly narrow verge and garden nearby so nothing that pendulous that would hang over fence, liquidamber maybe					
Lambourn Crescent Sydenham				1WY6	bit restricted for space, something fastigate with flowers					
Chesterton Drive, opposite Packwood Close				1WYA	plenty of room, no above ground constraints only one small window in nearby buildings, ime perhaps?					
St Brides Close, Sydenham			To replace previous new plant Rowan that has failed	1WW9						
Broadhaven Close off Sydenham Drive outside no. 11 next to canal				14YN	smaller ornamental, perhaps another cherry, plant nearer centre of verge this time					
Broadhaven Close outside no. 10				14YP	smaller ornamental, perhaps sobus or hawthorn, plant a bit further along maybe outside 8- 9 for better spacing					
16 Milverton Terrace				16DE	Replacement for dead tree once removed alder?					
Milverton Terrace opp 13	GC	Tilia	To replace previous tree	27C3	Tarmac patch over old position now sunken					
Newnham Road				212Z	this is the only position in the road free of overhead BT lines, the 3 other verges could have trees as well if something low growing was planted, maybe shrubs?					
228 Cubbington Road			to replace nearby previous tree	2785						
Haddon Road			to replace previous tree	1552						
Haddon Road			to replace Poplar to be removed	1482						
Cosford Close outside no. 8				212Y	to replace rowan in poor condition that is still in position, 1QHD opposite may need replacing as well, field maples, something fairly narrow like louisiana red shine
